

ADAM SCHUBERT - SOFTWARE ENGINEER

ENGLEWOOD, CO | 610-564-1021 | adamschubert222@gmail.com | [LinkedIn](#) | [GitHub](#) | [Online Business Card](#)

SUMMARY

Highly skilled Full-Stack Software Engineer with expertise in front-end and back-end programming, utilizing JavaScript, React, HTML, CSS, API implementation, Node.js, Express, PostgreSQL, and Bootstrap frameworks. Seeking an entry-level software or web development position to apply foundational knowledge and proven technical skills. Enthusiastic about joining a flexible team environment that fosters creativity and collective success.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, jQuery

Backend: Node.js, Express, RESTful APIs, PostgreSQL

Tools: Mocha, Chai, Knex, Git, GitHub, Heroku, Node Package Manager, Visual Studio Code

PROJECT AND PROFESSIONAL EXPERIENCE

Thinkful

Remote

Engineering Immersion Program

01/2023 – 06/2023

- Learned industry best practices and software development standards with a focus on JavaScript, HTML5, CSS3, React Native, Node.js, PostgreSQL, RESTful API's, algorithms, and data structures
- Developed and deployed mobile-first applications while learning new languages and frameworks, spending several hours per week collaborating with senior web developers in a mentor-student relationship
- Produced professional projects from concept to completion including:
 - **Library Application** | [adamslibraryapp.com](#)
 - Assembled the functionality for an application that allows users to search, review and check out books from their local neighborhood
 - Created search and sorting functions allowing users to know book availability and their rating.
 - Coded using JavaScript functions that are built to enable the expansion of the library with little to no need for code refactoring
 - Technology: JavaScript ES6, Bootstrap, HTML5, Node.js
 - **Encryption/Decryption Application** | [adamsdecoderring.com](#)
 - Built to be an encryption/decryption application to communicate and read top-secret messages.
 - Created utilizing the test-driven development method
 - Created CRUD functions and Knex queries to handle data going to and coming from the database.
 - Technology: JavaScript ES6, HTML5, Node.js, Bootstrap, Mocha, Chai
 - **Movie Database Application** | [adamsmovieapp](#)
 - Assembled the back end of a movie website allowing any user to search for their favorite movies
 - Used CRUD methods for reviews, and view theaters and movies that are showing
 - Applied router and controller functions to retrieve a user's specific requests
 - Technology: Node.js, Express, and Knex. Version control with Git

EDUCATION

Thinkful

Remote

Certificate, Engineering Immersion

06/2023

West Chester University of Pennsylvania

West Chester, PA

Bachelor of Arts, Anthropology

05/2016

- Graduated cum laude, and as a member of the Lambda Alpha National Honors Society for Anthropology

WORK EXPERIENCE

Amazon

Aurora, CO

Sortation Center Associate

08/2023 – Current

- Execute several core sortation warehouse functions, such as picking packages, building pallets, loading and unloading pallets, scanning and processing inbound and outbound items, processing over-sized items, and much more
